

What is the Highest Yielding Row Spacing and Population for This Area? (Non-Irrigated)

Northeast Research and Extension Center

Planting Date: June 8

Variety: Armor GP530

Row Spacing: 7.5" 20" 38"

Seeding Rate:

30,000 (10 lbs)

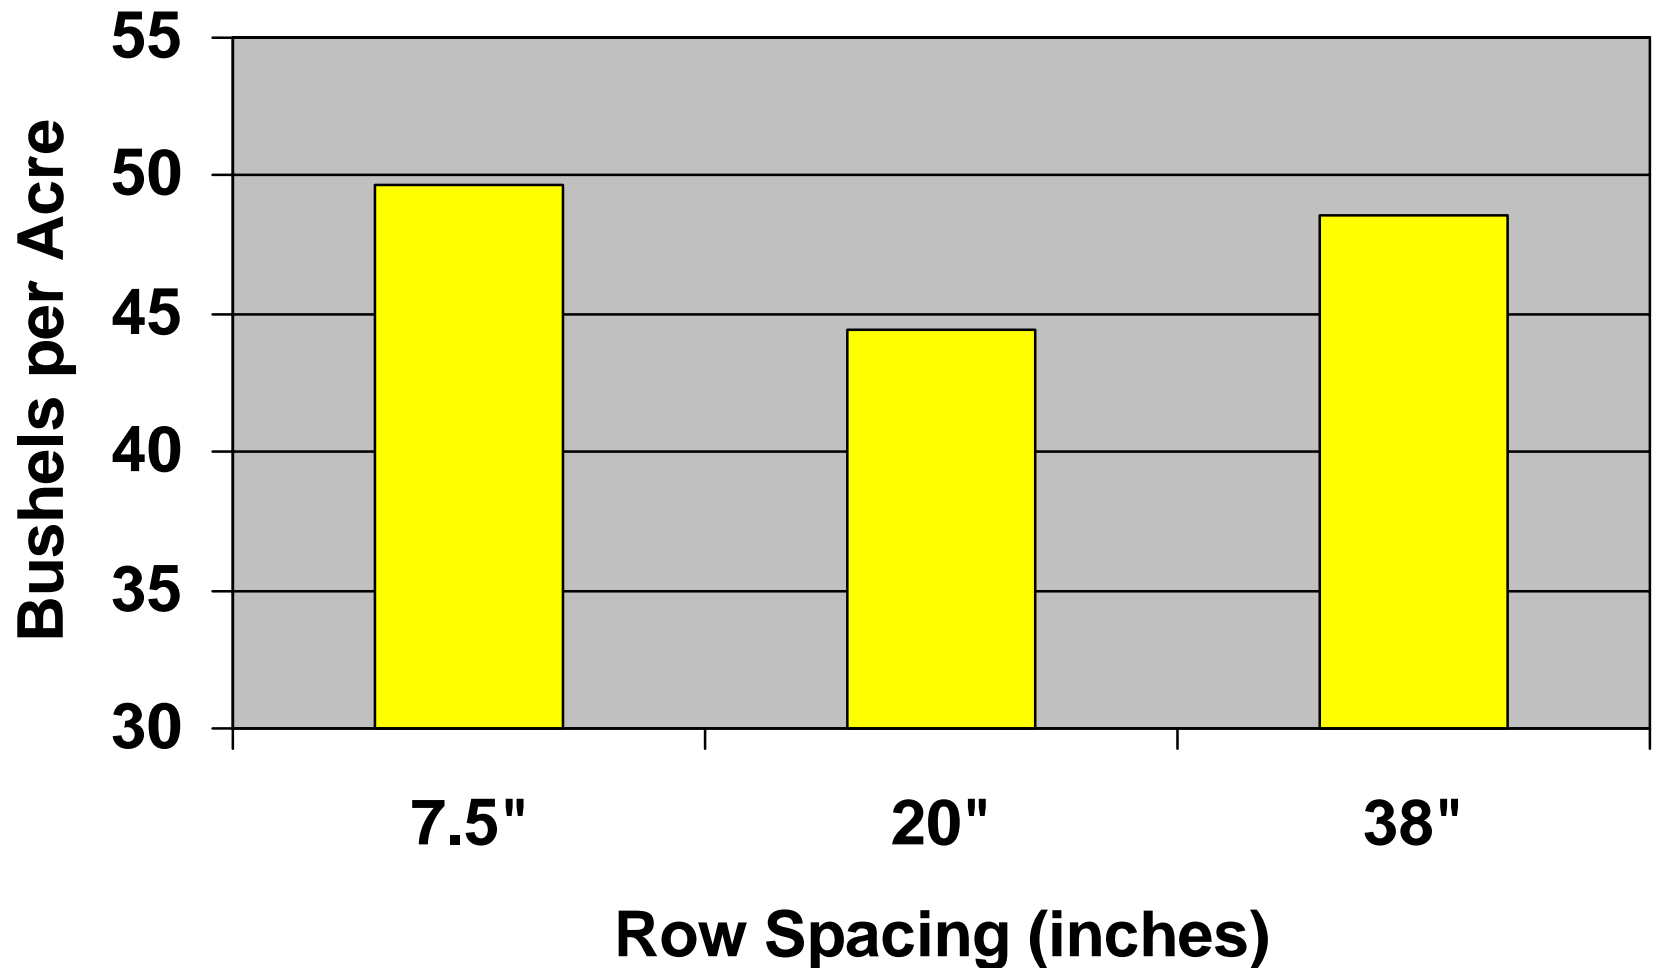

150,000 (50 lbs)

60,000 (20 lbs)

210,000 (70 lbs)

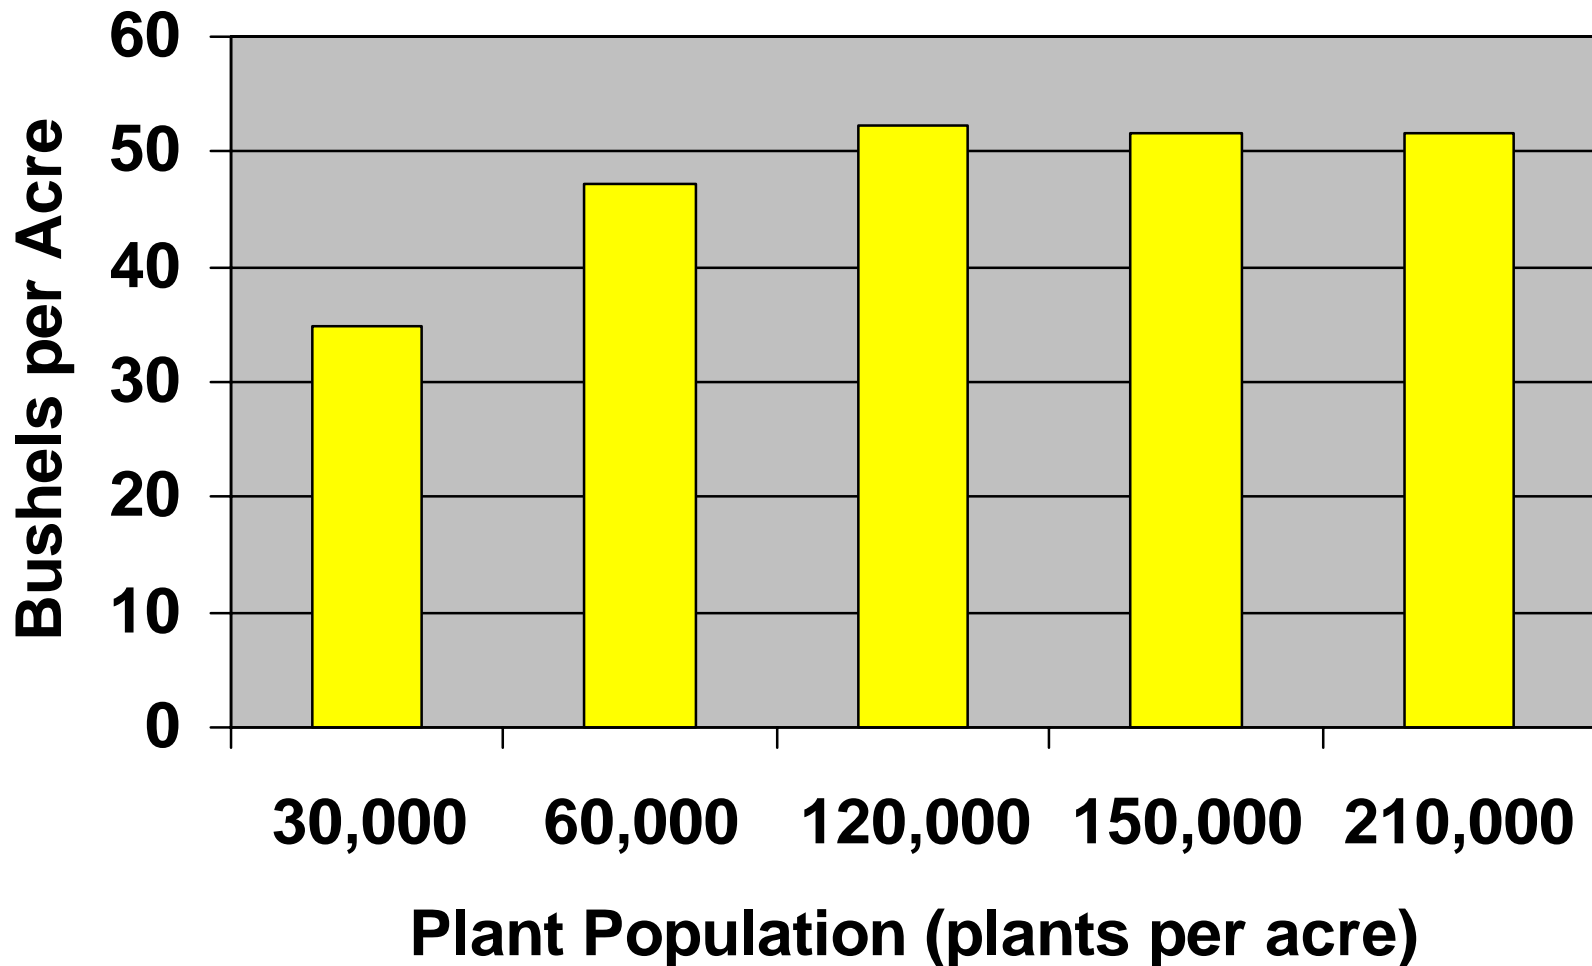

120,000 (40 lbs)

What is the Highest Yielding Row Spacing for This Area? Non-Irrigated

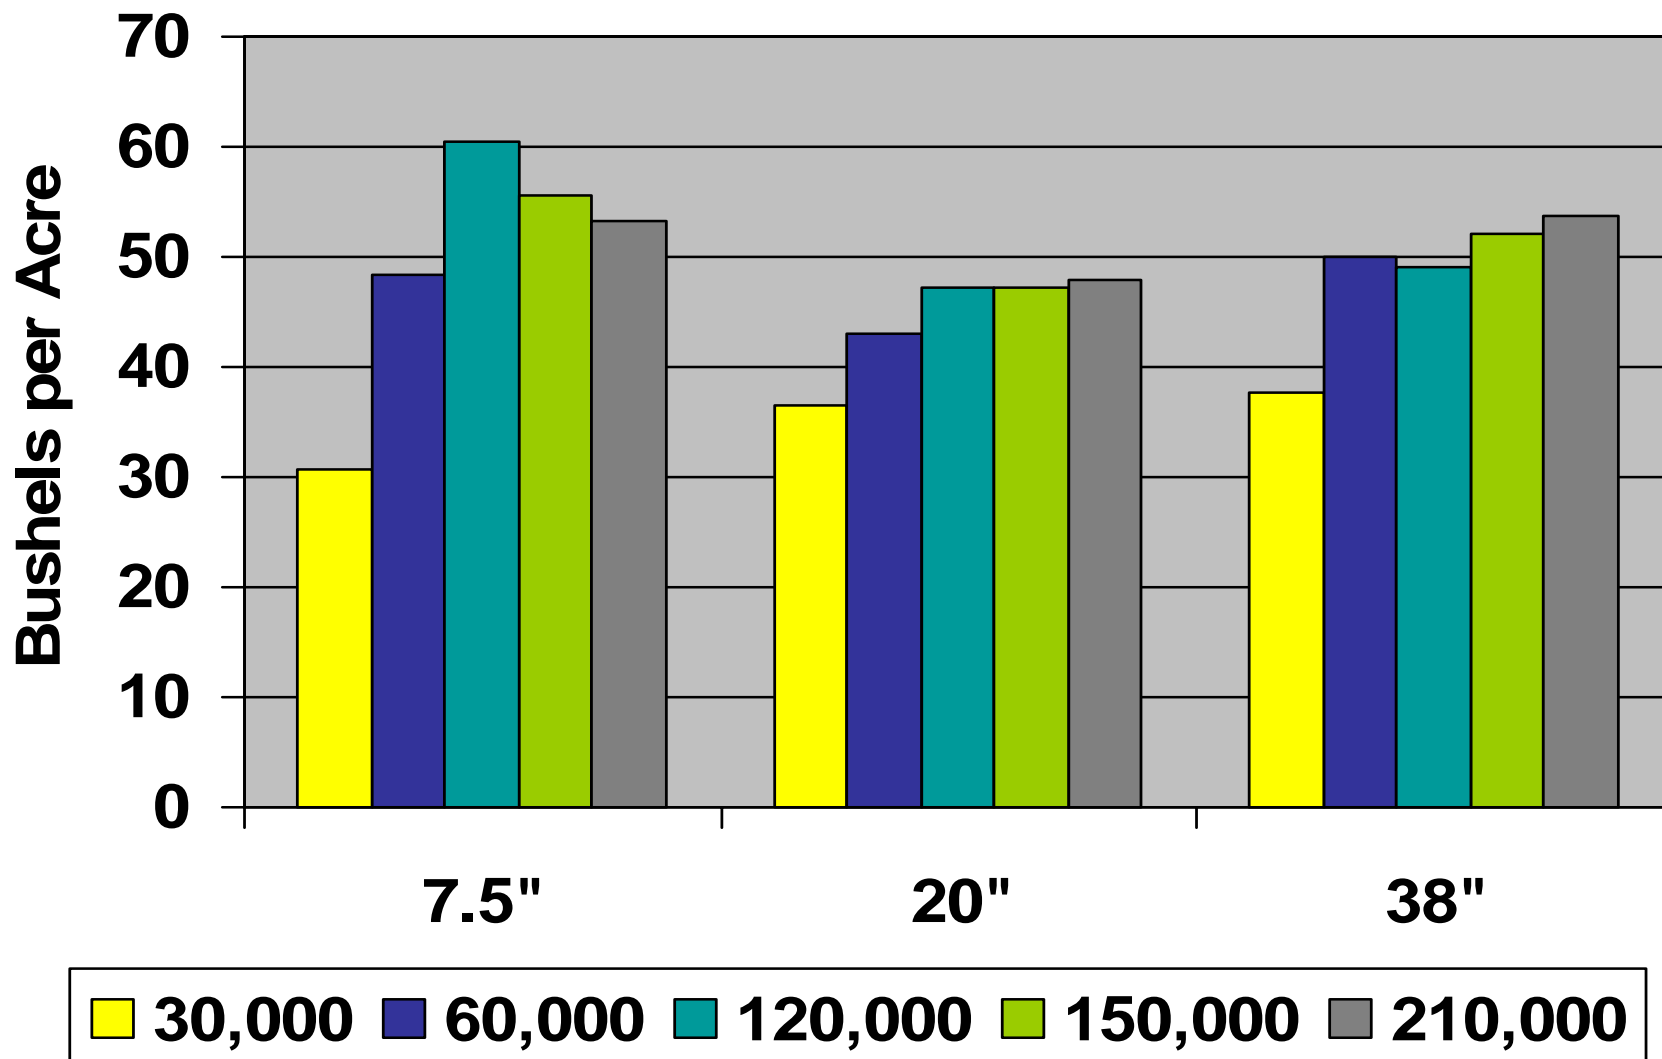

What is the Highest Yielding Population for This Area?

Non-Irrigated

What is the Highest Yielding Row Spacing and Population for This Area? (Non-Irrigated)

Acknowledgements

We are grateful to the Soybean Farmers of Arkansas and the Arkansas Soybean Promotion Board for the combined efforts in support in improving the profitability of soybean production.
